Title *	Nature for Climate Peatland Grant Scheme Discovery focal areas (England)
Alternative Title	NCPGS Discovery Grant Focal Areas (England)
Dataset Language *	eng
Abstract *	<p>This is a spatial dataset describing the geographic focus areas of sites that were investigated under the NCPGS Discovery grant funding. The NCPGS funds peatland restoration and is made up of two grants: Restoration and Discovery. Discovery grants, shown in this spatial dataset, work to unlock barriers and prepare projects for peat restoration. Given the investigative activities undertaken in Discovery grants are difficult to map (like engagement), these have been represented as focus areas, with the intent to represent information at a project level rather than site level.</p> <p>The purpose of this dataset is to make it more transparent where the NCPGS has funded preparatory peatland survey work; peat depth, hydrological, archaeological or ecological survey. Whilst the specifics of these surveys are not represented here, the peat team may hold more detailed information associated with the Discovery focus areas shown.</p>
Resource Locator	tbc
Data Format	shp, file geodatabase
Resource Type *	dataset
Unique Resource Identifier	1

Classification of Spatial Data & Services

Topic Category *	0
INSPIRE Themes	Area management/restriction/regulation zones and reporting units
Spatial Data Service Type	0
Coupled Resource	0

Originating Controlled Vocabulary	0

Geographic Location

Extent *	England
West Bound Longitude *	-3.33379
East Bound Longitude *	1.68642
North Bound Longitude *	55.62116
South Bound Longitude *	50.6502
Vertical Minimum Extent	0
Vertical Maximum Extent	0
Spatial Reference System *	British National Grid

Temporal Reference

Temporal Extent - Start Date of Data Capture *	01/09/2021
Temporal Extent - End Date of Data Capture *	03/04/2024
Date of Creation *	03/04/2024
Date of Last Revision *	0
Dataset Reference Date *	0
Dataset Reference Type *	0

Quality & Validity

Lineage *	The main source data used to produce this layer was central grid site locations provisioned by NCPGS grant recipients as to the location of their Discovery grant investigations. These central grid references were converted to xy co-ordinates and enlarged to a buffer zone of 2.5km in ArcGIS Pro. Datasets used: NCPGS Discovery Grant - NE OS Mastermap - OS
