

Permit Number: LP3131TA
Operator: E.ON Climate and Renewables UK Biomass Limited
Facility: Blackburn Meadows Renewable Energy Plant
Form Number: P1

Annual Reporting of Performance Parameters for the period from 1 January 2016 to 31 December 2016

Parameter	Units	Total
Total biomass combusted	tonnes	206,263
Total Waste biomass combusted (included in the above figure)	tonnes	206,263
Total auxiliary fuel oil used	tonnes	218
Electrical energy produced	KWhrs	260,429,948
Thermal energy produced e.g. steam	KWhrs	8,989,900
Electrical energy exported	KWhrs	232,648,550
Electrical energy used on installation	KWhrs	28,142,745
Waste heat utilised by the installation	KWhrs	0
