

Dataset Documentation

Commercial Fleet Holding

08 March 2016

This document will help you understand and use **Commercial Fleet Holding**

Dataset description

The dataset is an Excel spreadsheet of assets on the commercial fleet as at 08 March 2016. The fleet consists of vans, 4x4s, HGVs, tractors, excavators, boats, towable equipment and other fleet equipment. The list shows basic information such as make and model, fuel type, when it is due to be replaced and if it is owned or leased. The Operational Area in which it operates is shown.

Update frequency

There are no current plans to update this dataset.

Anonymisation

The registration numbers of assets which display them, vehicles and road-going plant, have been removed. The fleet number is unique and remains included for each record so that they can be identified. The Depot, location where an asset is primarily based, has also been removed for security considerations. The Operational Area in which the asset operates remains included.

Common questions & known issues

The Group referred to is a fleet group which relates to a specific type of asset.

The Fleet Number is formed using the following standard:

- Prefix: EA
- Fleet Group: 2 numerical digits
- Unique reference: 6 numerical digits

Statuses of assets show the life cycle from "ORDERED", "ON FLEET", "AWAITING SALE", "AT AUCTION". Where the status reads "ARP 20xx/xx" denotes that it was part of the replacement programme for the financial year given.

Note: We do our best to avoid quality problems but this dataset reflects the data we hold. Our datasets may contain errors.

Dataset content

Commercial Fleet Holding (08Mar16).xlsx

Unique keys: Fleet Number

| Field name | Description |
|-----------------------|--|
| FLEET_NUMBER | Unique identifier |
| Area | Operational Area which the asset works in |
| Group | Fleet Group |
| MAKE | Manufacturer |
| MODEL | Model |
| VEHICLE_TYPE | Generic type of asset such as Excavator, Vehicle, etc |
| FUEL_USED | Fuel type used in the asset |
