Dataset Reference Type *	creation

Quality & Validity

Lineage *	Class licence surveys for great crested newts were undertaken by hand, nets, torches and aquatic funnel traps (including bottle traps) but excluding the use of pitfall traps and box traps. Results of great crested newt class licence surveys are submitted to Natural England and have been collated here into a presence only data set. Point data here is the centroid of a six figure OS grid reference. As such, the point may not correspond with a specific pond.
Spatial Resolution	100m x 100m
