

Column Name	Full Name	Format	Description
Species	Species	Text (50)	English name of bird
ID	ID	Text (50)	ID reference
SPA_sp	Qualifying or Assemblage species	Text (50)	Qualifying or Assemblage species (Yes); neither of the above (No)
From	From	Text (100)	Site bird first identified (ringed or otherwise seen and noted as an individual)
To	To	Text (100)	Site at which the bird was re-seen, re-captured, recovered already dead or shot
Proven_mov	Proven movement regular	Short	Movements of birds were noted, with certainty, on a regular basis. See text of report.
Implied_mo	Implied movement regular	Short	Movements of birds were noted, but observations could only imply regular movement rather than prove it. See text of report.
Proven_m00	Proven movement irregular	Short	Movements of birds were noted, with certainty, on an irregular basis. See text of report.
Implied_00	Implied movement irregular	Short	Movements of birds were noted, but observations could only imply irregular movement rather than prove it. See text of report.
Proven_m01	Proven movement regularity unk	Short	The regularity of movements between the two points shown was unknown. See text of report
Season_1	Season 1	Text (50)	The season(s) within which/ between which the bird was seen at two different locations
Season_2	Season 2	Text (100)	The second season in which the bird was seen, if it was seen more than once
Season_3	Season 3	Text (100)	The third season in which the bird was seen, if it was seen more than twice (did not apply to the individuals mapped)
Comments	Comments	Text (254)	Comments received from observers
Source	Source	Text (50)	Source of observation(s) if known
MOVEMENT_T	Movement Type	Text (254)	See text of report
Start_Poin	Start Point X Co-ordinate	Double (precision 30, scale 15)	The X co-ordinate of the location of capture/ first observation
StartPoint	Start Point Y Co-ordinate	Double (precision 30, scale 15)	The Y co-ordinate of the location of capture/ first observation
EndPointX	End Point X Co-ordinate	Double (precision 30, scale 15)	The X co-ordinate of the location of capture/ second observation made away from the point of original capture or observation
EndPointY	End Point Y Co-ordinate	Double (precision 30, scale 15)	The Y co-ordinate of the location of capture/ second observation made away from the point of original capture or observation
SlimBridge	Slimbridge	Text (50)	N/A
Slimbridge_1	Slimbridge_1	Text (50)	N/A
OBJECTID*	Object ID	OBJECTID	Unique not null integer to uniquely identify rows in this table
Group	Group	Text (74)	Group the bird described belongs to - a broad taxonomic term used in the report.
Shape_Length	Shape Length	Double (precision 30, scale 15)	Length of the shape
