## The Supporting Appendices

This appendix and the accompanying documents provide all of the information required to support the Shoreline Management Plan. This is to ensure that there is clarity in the decision-making process and that the rationale behind the policies being promoted is both transparent and auditable. The appendices are:

|                                                     |                                                                                                                                                                                                                  |
|-----------------------------------------------------|------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------|
| A: SMP Development                                  | This reports the history of development of the SMP, describing more fully the plan and policy decision-making process.                                                                                           |
| B: Stakeholder Engagement                           | All communications from the stakeholder process are provided here, together with information arising from the consultation process.                                                                              |
| C: Baseline Process Understanding                   | Includes baseline process report, defence assessment, NAI and WPM assessments and summarises data used in assessments.                                                                                           |
| D: SEA Environmental Baseline Report (Theme Review) | This report identifies and evaluates the environmental features (natural environment, landscape character, historic environment, land use, infrastructure and material assets, and population and human health). |
| E: Issues & Objective Evaluation                    | Provides information on the issues and objectives identified as part of the Plan development, including appraisal of their importance.                                                                           |
| F: Initial Policy Appraisal & Scenario Development  | Presents the consideration of generic policy options for each frontage, identifying possible acceptable policies, and their combination into 'scenarios' for testing.                                            |
| G: Scenario Testing                                 | Presents the policy assessment and appraisal of objective achievement towards definition of the Preferred Plan (as presented in the Shoreline Management Plan document).                                         |
| H: Economic Appraisal and Sensitivity Testing       | Presents the economic analysis undertaken in support of the Preferred Plan.                                                                                                                                      |
| <b>I: Metadatabase and Bibliographic database</b>   | All supporting information used to develop the SMP is referenced for future examination and retrieval.                                                                                                           |
| J: Habitat Regulations Assessment                   | Presents an assessment of the effect the plan will have on European sites.                                                                                                                                       |
| K: Strategic Environmental Assessment               | Presents the Strategic Environmental Assessment of the Plan.                                                                                                                                                     |
| L: Water Framework Compliance                       | Presents a retrospective Water Framework Directive Assessment.                                                                                                                                                   |

## Appendix I: Metadatabase and Bibliographic database

This Appendix includes a list of the key reference materials used in the development of the Shoreline Management Plan. The list includes the documents reviewed and the websites used. The latter presents the web address and clarification of the content where necessary.
